Personal Summary

Junior Flutter Developer with a Computer Science background and hands-on experience building cross-platform mobile applications using Flutter and Dart. Experienced in REST API integration, state management, Supabase backend services, and responsive UI development. Strong debugging skills and familiarity with the full app lifecycle from design to release. Seeking a junior Flutter developer or mobile developer role.

Skills

- Mobile Development: Flutter, Dart, Material UI, Responsive UI
- State Management: setState
- Backend & APIs: REST APIs, Supabase (Auth, DB, Storage), Firebase
- Tools: Git, GitHub, Android Studio, VS Code, Postman

Professional Experience

- Developed and maintained Flutter features for production mobile applications
- Integrated REST APIs, handled JSON parsing, and implemented validation and error handling
- Debugged UI and logic issues and collaborated with backend and design teams in an Agile environment

Education

Birzeit University – B.Sc. Computer Science | 2021–2025

- Graduation Project: Full-stack social networking app (Flutter, PHP, MySQL, Firebase) with real-time chat & admin roles.

Projects

1. BZU Leads – social media Mobile application
 - Developed a cross-platform social media app using Flutter (Dart)
 - Integrated PHP-based REST APIs for authentication and content management
 - Implemented real-time messaging using Firebase Built responsive UI and full CRUD functionality with role-based access control
 - Technologies: Flutter, Dart, PHP (REST APIs), Firebase, Material UI
2. FocusFlow - Task Management Mobile App (Flutter)
 - Built and deployed a Flutter mobile app with Supabase backend (PostgreSQL)
 - Implemented responsive UI and full CRUD functionality
 - Integrated backend APIs and managed application state
 - Technologies: Flutter, Dart, Supabase, PostgreSQL, Android APK
3. Truck Tracker - Logistics & Shipment Tracking App (Flutter)
 - Developed a Flutter mobile app for shipment tracking and delivery workflows
 - Integrated Supabase (PostgreSQL) backend for managing shipment data and statuses
 - Implemented role-based features and dynamic UI for real-time status tracking
 - Technologies: Flutter, Dart, Supabase, PostgreSQL
4. Notes App - Flutter UI Application
 - Developed a lightweight note-taking mobile application using Flutter
 - Focused on clean UI design, layout structuring, and state handling
 - Emphasized user experience and responsiveness across screen sizes
 - Technologies: Flutter, Dart

Certifications

- Flutter Development Certification – The Hope International Company (Completed Dec 2024)
- Manual Software Testing + Agile with Jira Tool (Completed Feb 2026)
