### Professional Summary

Junior Software Engineer (Flutter, Full Stack, & QA) with hands-on experience in developing and testing production-level web and mobile applications using Flutter, Angular, HTML, CSS, Java, PHP, and MySQL technologies. Solid grounding in RESTful APIs, authentication systems, responsive UI designs. Trained in manual Software Quality Assurance techniques such as test case design, bug reporting, Agile development. Currently building on my learning in test automation. Looking for a junior position in a technology-driven organization.

#### Technical Skills

- Programming Languages: Java, Dart, PHP, HTML, CSS
- Databases: MySQL, MongoDB Atlas, Supabase, PostgreSQL (learning)
- Frameworks & Tools: Flutter, Angular, React, Firebase, Postman, Git, VS Code, XAMPP
- Software Engineering & QA: RESTful APIs, State Management, Authentication Systems, CRUD Systems, Responsive UI/UX, Manual Software Testing, Test Case Design, Bug Reporting, Agile & Jira Fundamentals

#### Professional Experience

**Flutter Developer Intern – Grids Apps Company** | Oct 2025 – Dec 2025

- Delivered production-level Flutter features and UI improvements.
- retrieve and reactivate old projects to ensure their operational functionality
- Participated in functional and UI testing before release.

**Full-Stack Developer Intern – True Time Solutions** | Jun 2024 – Sep 2024

- Built a CRUD product management system using Angular, PHP, and MySQL.
- Developed responsive UI with Angular Material and optimized backend queries.
- Performed functional testing to validate features and data integrity.

**Freelance Web Developer – Diyar Consultants Company** | Mar 2023 – Jun 2023

- Developed and deployed a full-stack corporate website.
- Implemented secure HR data handling and content management.
- Ensured responsive design and cross-device compatibility.

### Education

Birzeit University – B.Sc. Computer Science | 2021–2025

Graduation Project: Full-stack social networking app (Flutter, PHP, MySQL, Firebase) with real-time chat, posts, and admin roles.

### Projects

1. BZU Leads – Social Media Mobile Application (Graduation Project) - Flutter, Dart, PHP (REST APIs), Firebase, MySQL
  - Developed a cross-platform Flutter application with authentication, role-based access, and real-time messaging.
  - Integrated PHP-based REST APIs and Firebase services for data management and notifications.
2. FocusFlow – Task Management Mobile App - Flutter, Dart, Supabase, PostgreSQL
  - Built a Flutter application with Supabase backend, implementing full CRUD functionality and responsive UI.
  - Managed application state and integrated backend APIs; deployed Android APK.
3. Truck Tracker – Logistics & Shipment Tracking App - Flutter, Dart, Supabase, PostgreSQL
  - Developed a Flutter-based shipment tracking system with role-based features and real-time status updates.
  - Designed dynamic UI and integrated Supabase backend services.

### Certifications

- Flutter Development Certification – The Hope International Company (Completed Dec 2024)
- Manual Software Testing + Agile with Jira Tool (Completed Feb 2026)
